**THE LONDON
CAT CLINIC**
FOR NINE LIVES AND COUNTING

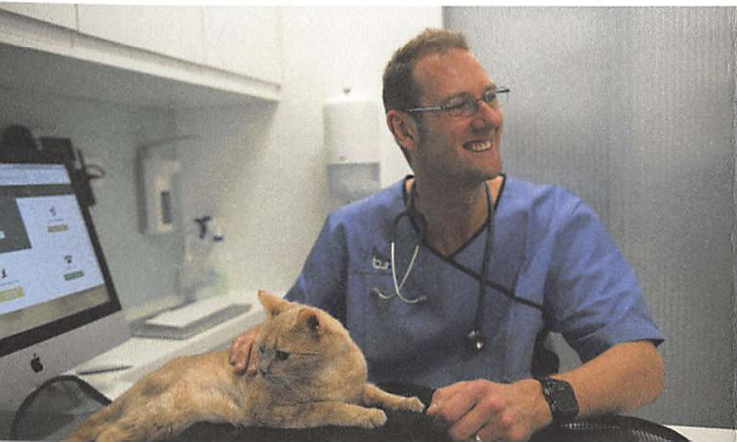

At The London Cat Clinic we believe in a proactive, preventative approach to your cat's healthcare.

A Pet Health Plan makes it easy for you to protect your cat and your family against preventable diseases and discomfort by making sure your cat's vaccinations and parasite control are all up to date. Regular health assessments increase the likelihood of picking up potential health issues early, allowing immediate intervention and helping your cat enjoy a long, comfortable life, whilst saving you money and worry too.

Pet Health Plans are not pet insurance: Pet Health Plans include the regular things – like health assessments and vaccinations, flea and worm treatments and nail clips but our Feline Fine Health Plan also includes a lot of additional extras including six month Health Checks, Nurse consultations, blood and urine tests for Senior cats and significant in-practice discounts on a large number of procedures, all in an easy monthly payment plan – However young or old your cat, a Pet Health Plan is designed to adapt to your cat's needs, from kitten, to adulthood and throughout its senior years.

A Pet Health Plan is a simple and affordable way to get all of the preventative care that our practice recommends for your cat.

We have teamed up with Simplyhealth, who will collect your Direct Debits on our behalf and take care of the administration of the plans.
